## PROFILE

I'm a computer science student at UQAM and a full-stack developer. I founded and grew Daily Music, a Discord app used by over 445,000 people, and I'm now developing dripcord. I'm looking for an internship or a junior role in web development in Montreal.

---

## EDUCATION

### UQAM

January 2026 – October 2028

Bachelor's degree in Computer Science and Software Engineering (currently studying)

### HARVARD UNIVERSITY

November 2024 – December 2024

CS50W Web Programming with Python and JavaScript. Final project: a website that helps users find the best deals on PC games

## SKILLS

- **Programming languages:** JavaScript, Python, Java, HTML, CSS
- **Backend and tools:** Node.js, Express, Django, API REST, MongoDB, Stripe, OpenAI API, Discord.js, Git, Linux
- **Other:** Project management, SEO, customer support
- **Languages:** French (native), English (bilingual), Spanish (school level), Chinese and Corsican (basic knowledge)

---

## EXPERIENCE

### DRIPCORD, FOUNDER & DEVELOPER

September 2026 – Present

- A web app that lets users try out Discord decorations, profile effects, profile frames and nameplates on their actual profile before buying them
- Developed entirely on my own, from the Discord login to the gallery where users share their looks, complete with profiles, follows and comments
- AI-powered recommendations (OpenAI) sold via credits, with payment processed via Stripe
- Python, Django, MongoDB, JavaScript

### DAILY MUSIC, FOUNDER & DEVELOPER

June 2023 – March 2026

- Discord application used by over 445,000 people across more than 2,500 servers, created and maintained on my own
- Bot, REST API, website, admin dashboard and automated Bluesky account (Node.js, Discord.js, Express, Django, MongoDB)
- Freemium model and conversion of free users to premium
- Tens of thousands of users acquired organically, through SEO and social media
- User support (free and premium) and moderation of a large community
